'Bayard' y 'Municipal' de sangre puro fueron introducidos al pais por la compañia, comprados en el castillo 'Mille Secusse' cerca de Burdeos, *Presidente* tambien puro nacido en el establecimiento 'Matanzas' arriba mencionado.

Creemos inutil entrar en mayores detalles sobre la cria Percheron que es una de las razas mas convenientes para la cruza con yeguas del pais, pues son animales fuertes, elegantes, fogosos y al mismo tiempo de una docilidad que no se encuentra en ninguno otra.

Tenemos una prueba de ellos en las varias yuntas que se ven en las calles de la ciudad procedentes de la cria del Sr Cambaceres, uno de los criadores de la raza que ha especido hasta ahora sus productos al publico.

La Compañia del Tramway hasta la fecha habia unicamente espuestos sus crias en varias esposiciones, obteniendo siempre premios, pero sin ofrecerlas en venta; hoy que lo hace, tienen los criadores una brillante ocasion para hacerse de animales de primer orden.

Los caballos y yeguas pueden verse en las caballerizas de la compañia en las 5 Esquinas y dos dias antes del remate en nuestra casa Alsina 78.

LATEST NEWS.

PRESS TELEGRAMS

The following epitome of the latest news by telegraph, from all quarters is taken from our colleagues—

Montevideo 10th.

Although I am not a party man, I must congratulate the *Tribuna Nacional* on its friendly remarks about this country, which have given much satisfaction here, as also the telegrams of President Roca and Mulhall.

The attempt to snub the Uruguayan Horace Mann—Jose P Varela—by suppressing his educational system and creating Consejos to superintend public education will fail; the Chambers will throw out the Bill.

Joe. Bustamante and 29 other Representatives have presented Bill for 50,000 pats to bring all exiled Orientals home.

President Santos has publicly declared that all Orientals can return home; all he asks is that they obey the laws, and in return his Government will guarantee their liberty, lives and property.

Rio Janeiro 10th.

The telegram received here yesterday from the Brazilian Commissioners to the Buenos Aires Exhibition, to effect that not a single insurance company could be found to insure the exhibits, has created a tremendous sensation here. The papers say that the fact leaves room for various and serious comments. Further shipments of exhibits stopped.

Montevideo 10.

The new Italian Minister here will be Signor Sauminia.

Cordoba 10th.

The portmaster at Tulumba has commenced an action against the *Prensa Catolica* for defamation.

Rumour that Cuestas and Terra are engaged on a comprehensive plan of general financial reform.

Rupert Noguez, a young fellow of 24, formerly a reporter, has blown his brains out.

COLONIZATION.

Taking for a text a Report of Mr. Latzina, Chief of the Statistical Office, our colleague, the *Nacion*, writes a long editorial on the project of colonies and colonisation. The *Nacion* is of opinion that official colonisation has injured spontaneous immigration; that the immigrant should be made a proprietor as soon as possible, and that official interference should cease. Apart from these propositions, the article of the *Nacion* is altogether too metaphysical to be instructive. Our good colleague writes so eloquently and with such flowing ease, that he seems to be impelled involuntarily to clothe the commonest subjects of discussion with a robe of eloquent erudition that immediately removes them from the sphere of vulgar comprehension.

The *Republica*, of course, considers it an obligatory duty to deny the truth of the *Nacion's* statement and upholds the system of official colonisation, and without saying much to the purpose managed to eke out its daily leader to the orthodox length.

Mr. Latzina makes a very important declaration in his Report. He says that if the Government colonies have not prospered, it has not been because the colonist was deficient in the qualities that insure success. This from a man in Mr. Latzina's position would seem to be a condemnation in toto of official colonisation. But, after all, we would like to see our native colleagues treat this subject practically and not as a vehicle to display their disquisitional talents.

For our part, we believe that official colonisation is a mistake, not that the system in itself is necessarily an error, but because none of our Governments will ever be capable of carrying it out. The system means a patriarchal care of the colonist until he can walk alone but we think that the sooner the colonist is left to take care of himself the better. There is a circumstance connected with immigration that appears to be lost sight of—that is, the fact of a great proportion of immigrants possessing money: we refer to agricultural immigrants. These families are never really indigent. They take good care to collect by hook or by crook a little capital before emigrating. On arriving here they take good care also to hide their store of 20 franc pieces, and as long as they can get assistance, or credit, or [illegible] the gold coins are carefully stored away. This capital, in the case of the class of immigration we allude to, is almost always sufficient to enable the family to build a cabin and purchase the necessary animals, implements and seeds. We know we are correct in our statements.

In the United States the immigrant is obliged on landing to give a note of his belongings, and amongst them the cash he has brought with him. The average shows that few families leave Europe for a permanent change of residence with a capital of less than two thousand dollars. Had we means in this country to prove the interesting statistic, we should undoubtedly be surprised at the amount of foreign gold that our apparently almost indigent Italian immigrants bring into the country.

Our idea of what the Government should do to foment emigration and the system of colonisation to be adopted are very precise and very simple. The Comisario de Inmigracion should have at its disposal a tract of 20 or more square leagues in each of the provinces. These tracts would be ceded to the National Government or bought by the latter. They should be laid out in squares of one hundred quadras, or four hundred acres each, one-half of two hundred acres to be made over at once to the immigrant family, on conditions varying with the locality, the other half to remain in possession of the Government, but in the usufruct of the colonist, until he be in the position of buying it at a price previously fixed by Government, which should be sufficient to cover all expenses incurred by the latter in the purchase of the land, etc. A couple of square leagues might be laid aside as a common for the pasturage of the cattle of the colonists and one league for a school grant which should be sold, and from the rental of which a permanent fund would be secured, sufficient to defray the educational expenses of the whole colony. All the duty of the Government, after acquiring and laying out the different colonies, would consist in sending the emigrant to the one he selects, and dump him down on his concession and leave him to his own resources.

Should such a scheme be carried out, we would have abundance of spontaneous immigration of a superior class.

ROSARIO.

(*From our own Correspondent*)

March 10th.

There is no language too strong to make use of whom we speak of the wretched system of administration of (in) justice in the camps of the provinces. The principle of 'set a thief to catch a thief' is even exaggerated, and thieves are set to worry honest men. The example of the French, when the Police Department placed the famous robber Vidocq at the head of the Detective force, has been strictly followed in this country. The French, however, made an experiment that no civilized nation ever followed, and I think that it was never repeated in France itself. But Vidocq, although a very Jack Sheppard amongst thieves, was a man of considerable talent, and when reformed, after some years of imprisonment, became quite a respectable member of society. But after all the principle, which has taken a proverbial form, is a dangerous one, and ought to be banished from amongst the axioms of a civilized people. Set an honest man to catch a thief, appears to be a much more sensible proceeding and more conducive to the general welfare and security. In these countries one would imagine that honest men are as scarce as they were in Athens when Diogenes turned his landlady's washing tub into a sleeping appartment; but it would be going too far to make such a sweeping declaration. The fact is, Governors of our Provincial principalities, according to the present system of misgovernment, are obliged to be surrounded with docile instruments; docile to the master but savage as bulldogs to everyone else, like the brutal gladiators in the times of the Roman Empire, each of whom had his patron amongst the young Roman nobility to whom he was an abject slave, but was a dangerous savage to everyone else. So it is with our camp justices of Peace (?) tenente, alcaldes and Comissaries. They are chosen for the same reason that one chooses a savage mastiff to protect one's person, and also with the confirmed belief in the principle already mentioned, carried out as I have said to exaggeration. Thus a man who has shown his courage or savageness by having made himself a double or triple homicide, is considered just the man to make a good 'Comisario General de Campaña.' But if on one hand the man's courage enables him to face any danger in apprehending malefactors, on the other hand, his brutal instincts are always

Can be used with COLD WATER. Sole agents MOORE and TUDOR. BEWARE OF IMITATIONS AND FALSIFICATION

leading him into acts of savage a bitriness and violence. It is too of ten the case that the Juez de Paz and Comisario, con ider themselves above all law, and free from all con trol except that of their 'patron. the Governor of the Province, or the Gefe Politico. We have a Comisario General(Oh dreadful word to the poor 'campesino,') in this province who has committed two homicides and hundreds of arbitrary acts the least of which would have deprived him of his position in any country outside of South America. These men must be flattered and petted and then they become fast friends, and will do anything for you. Fortunately they rarely meddle with foreigners. They all have a dim perception of foreign Ministers and Consuls; but woe to the Argentine 'paisano' who offends them in any way. The poor fellow had better move off at once to another 'pago.'

Santa Fe is about to try the experiment of a clergyman for governor. The province has had quite a variety of rules in its day, doctors, generals, lawyers, estancieros, merchants and gauchos. In the long list only two, Cullen and his brother-in-law, Oroño, advanced the prosperity of the province. They greased the wheels of the car of progress and it has been going at locomotive speed ever since, notwithstanding the ineptitude and ignorance of some and the indolence of others who have followed them. It is long since the people have given up all hope of political progress and beneficent initiative on the part of our goverments; so they are perfectly indifferent as to the person who assumes the baton of office, if they are only let alone. Crying abuses and evils exist in every Department, but as it is useless to ask the Administration to redress, them, we have got accustomed to their ugliness as something inherent in the present state of our political economy. No one will dream of drawing Dr Zavalla's attention to the necessity of good roads and bridges, education of the people, purity of administration reform in camp justice, the abolition of camp Caciques, liberty of suffrage, etc., and I am very much inclined to think that he is not a man to believe that the duty of a Santa Fe governor lies in that direction. Half an hour in the morning in the office to sign a document or so, three hours' 'siesta' in the afternoon, and dominoes and chat at a cafe until twelve o'clock at night That is the style of thing and will suit Dr Zavalla nicely, for he is a good kind of fellow, a good companion, and one that does not hide his light under a bushel. Mr Sarmiento knew all about this when he advised Dr Iriondo to change the Capital to Rosario. But they will never do it. There would be an end of siesta and patriarchal simple habits. The whirl of activity in Rosario would turn a Santa Fecino's head in six months. Dr Zavalla, or the 'Curita,' as he is familiarly called in Sleepy Hollow, would be like a dorado landed by the fisherman on a bank of flowers, surrounded by perfume and colour but gasping from the very excess of air that it has to take in.

The first telegram the new Governor sent to Rosario on his election, was to another clergyman here, Mr Gimenez, a fine handsome-looking 'padre,' who is headmaster in one of the principal schools, and who also enjoys the reputation of being a very companionable man in society. I should not wonder if Mr Zavalla were to choose Mr Gimenez for his Minister, and then we might see the Government House turned into a chapel, and good San Francisco monks of San Lorenzo filling the benches of the Legislature, making speeches in pure Spanish on the urgency of voting a grant of money for the purpose of whitewashing their monastery of San Carlos.

You are beginning to appreciate the fact that wheat is not so scarce some people tried to make us believe for the benefit of their various ends. We have not sufficient vessels in Rosario to transport the enormous quantity coming in. One large speculator in Santa Fe has come to sudden grief, and it is to be feared others will follow in his wake. The prices must come down to an export figure.

EDITOR'S TABLE

Paris, Thoroughbred Horses and the Persecution of the Jews in Europe claim our Supplement to day We are fairly enveloped in correspondence from Paris and Patagones, London, Rio Cuarto, Mendoza, Rosario and half a dozen other places, but can only find space today for a tenth part of it.

The *standard* weather prophet right again! Last month he predicted that March would be a hotter month than February, and so far he is right. The heat yesterday was of an ovenish kind, and everybody prayed for rain. The high temperature, however, did not impair the general satisfaction that the threatened rupture between the Lords and Commons at home is at an end, at least for the present, unless Mr Labouchere's promised motion should reopen the question The sweeping majority for Mr Gladstone shows how firmly the veteran is seated in the State saddle.

Paterfamilias is all agog about the approaching re-opening of the school in connection with Saint Andrew's Scotch Church. The school is now undergoing extensive repairs and alterations, which will render it in every way a model establishment. The new head master, Mr Hutton M.A. has arrived and awaits but the moment when Messrs. Rider and Merry can hand over the building for scholastic purposes to open the classes. Meantime Mr Hutton will be glad to meet parents or guardians intending to place their children or wards under his care, and also to hold preliminary examinations of intending pupils.

Panama papers of Feb. 2d reached us yesterday. There is not a word of interesting news. The Canal hangs fire, in fact less is known about it in Panama than in New York and Paris. The only thing we see about it in the *Star* and *Herald* is that 77 of the Canal employees, engineers etc have died from the bad climate within the past seven months. This is terrible mortality, but the Isthmus is a frightfully insalubrious spot.

Banda Oriental affairs appear to be on the road to a decided improvement at last. The new Government is evidently going the right way about it and has set to work with a will. Cabinet Councils are held daily, to get the Administrative machine into good working order. The best sign of all is that the Government securities are rising on the Montevidean Bolsa. Mammon rarely errs in its opinion of Governments.

We are pleased to say that the in-case fall of title deeds lost by one of our subscribers on Thursday night was restored to him yesterday.

The prices of entrance to the Exhibition are moderate enough;—General 'entrada' $10 m/c; concerts and special occasions $20; opening and closing days $30; season tickets $500 for general public and $300 for exhibitors, shareholders and members of the Club Industrial. Children under *five* years half price. Under *five*? This is another blunder. It should at least be under *eight*. Who cares to tire little five year olds by dragging them through an Exhibition?

Two bottles full of Riachuelo water were presented to the Corporation yesterday, with a petition to have it analyzed. On the bottles being opened the City Fathers immediately clapped their handkerchiefs to their noses. The stuff smelt like stale whiskey punch. The petitioners explained this by stating that it is the whiskey distillery at South Barracas that does most of the mischief, by allowing its refuse to flow into the stream.

The Municipality has decided to expropriate the Colon Theatre. The contract expires this month.

Our advices from Rio Cuarto say that the collapse of the Powder Mill up there was due to the fact that it was built of indigeneous brick and mortar instead of English ditto, which made all the difference. The new market in Rio Cuarto is the finest in the republic.

Mendoza has only sent nine cases to the Exhibition. Not so bad from such a distant province.

There is a move on foot to get the north bank of the Riachuelo paved before the winter rains come on. The Slough of Despond is nothing to the banks of the Riachuelo on a muddy day.

The Industrial Club Committee 'rose to explain' yesterday the apparently inexplicable anomaly of its not wishing to have 'agua is correctes' laid on in the Exhibition. The reason is that Plaza Once and the tank in Plaza Lorea being more or less on the same level, there would be no pressure of water to meet the emergency of a fire, and the expense would be a useless one.

Robert the Devil to-night at the Colon Theatre, with the full strength of the Ferrari company. This grand composition always fills the theatre.

We received yesterday another interesting letter on the Electric Light, but have no space for it to-day, A witty subscriber remarked that there was enough gas and electric light in our Supplement yesterday to have set it on fire. So there was; but we took all the precautious prescribed by science to avert such a catastrophe.

The collection made here for the sufferers by the burning of the Ring Theatre in Vienna was a decidedly large one considering how few subjects the Emperor Francis Joseph has here. Baron Gravenegg, the popular representative of his Imperial Majesty in this country, has sent 20,965$ m/c the total collected—to the Minister of Foreign Affairs at Vienna.

The French steamer Savoie has brought a fair batch of emigrants from the Mediterranean—450. Success to them all,

The rumoured intention of President Roca to pay a visit to the Santa Fe colonies was an invention. A city paper published the 'bola' and one of our Rosario colleagues at once took it up. The colonists were at once in a fever of preparation, as President Roca is prodigiously popular with them. All kinds of fetes to welcome the Chief Magistrate were devised by the numerous Committees named. The San Carlos Committee, however 'cut out' all the others by a novel idea, viz, to get together every plough, harrow, reaper, thrasher and agricultural implement of every kind in the settlements, and form a lane with them from the Salado to the colonies, through which the President would pass. Over 3,000 different implements would have been required to make the double hedge, and we feel certain President Roca would sooner ride through it than along the front of an army, soldier thought he be. We hope that H E will give the colonists an opportunity of parading their implements for him next Spring.

The Calle Rivadavia for some squares from Callao Onewards is in an appalling mess, with the paving going on. It is out of the question to finish it in time for the Exhibition.

Advices from Paraguay say that things are all right up there and more life expected in the Customs' receipts this year, although there is a deal of smuggling going on.

President Roca will issue a decree to-morrow ordering that next Wednesday, 15th, the date of the opening of the Exhibition, shall be observed as a general holiday.

The masquerade ball peopele are making the Exhibition a plea for pestering the Municipality to allow them to recommence these objectionable orgies. We hope the Corporation will refuse point blank.

Dr. Plaza the new Minister of Foreign Affairs has given notice that he will be 'at home' officialy in the Red House on Tuesdays and Saturdays, from 4 to 6 p.m.

The Municipality of Moron have funny ideas of things. They have imposed on all the thrashing machines in the partido the same patente tax as on wheeled vehicles, and what's more, threaten to send all the Thrashers to Bullrich, to be sold by auction, if the tax be not paid within 48 hours. We suppose skates come under the 'rodados' tax in Moron.

A heavy wheat failure—200,000 pats—is announced in Santa Fe.

Mr Albert Guerrico, Argentine Consul General in London, will start to-morrow for his post in the Big Village. We wish him a safe and pleasant voyage.

A quartermaster of the Capitania fell dead on the Mole on Friday, from a fit, induced by being violently reprimanded by the Commander of Marine, for being late with the 'falua' when the distinguished party that visited the Admiral Brown that day were returning to shore.

We hear that the annual pic-nic and athletic sports of the Southern Railway employees will come off on 25th inst, Saturday, a 'dia festivo.' We'll back Don Carlos Escurra at any odds to win the race for boys over 60, as he always does.

A horrid murder was committed at Flores on Friday by an Italian named Imperiale, who stabbed his wife in the throat, killing her instantly. The assassin fled, but was captured the same night at Campana, while trying to escape to the islands.

The prize medals and diplomas won by Argentine exhibitors 4 years ago at the Paris Exhibition have come out. Why not have kept them a few years more? There is no valid reason for such hurry. The winners are Messrs Lafone and Quevedo and Dr Ribon who receive a diploma each, and a bronze medal for Mr Weller—a distant relative, we suppose, of the late Mr Tony Weller.

There was another squeal yesterday in Exhibition quarters owing to the telegram from Rio. When the Fluminenses heard that the insurance companies here had refused to insure any exhibits whatever, there was a prodigious ferment, and orders were at once given to stop the shipment of the rest of the exhibits. Are the 'contretemps' in connection with this unfortunate Show never to cease?

The frontier line at Carhue and Bahia Blanca is to be pushed out to the Laguna del Carancho and the Colorado. Colonel Villar of the 6th Light Dragoons commands the expedition, which will march immediately. The Colonel, in order to obviate the 'falta de caballos' abuse, has proposed to Government to wire in an enormous 'potrero' on the frontier line, with 10,000 mares, to breed horses for the frontier service. The idea is good enough, but the 'potrero' should be well out of the reach of the Indians, who have been known to carry off the horses of the frontier garrisons before now, and more than once.

Typhoid fever is very bad in Patagones just now.

	March 11th
Patacons	25.01
Cedulas A	100½
Cedulas E	84½
National Bank Shares	123
National Bonds 1883	88

The market opened this morning under the influence of news of a conflicting nature a of rumours that fell to the ground as the ar advanced. It was currently reported that party involved in the Antwerp failures h given full guarantee and made satisfactor arrangement with the Bank. There is a opinion gaining ground on Change that th consequences of this affair have been great exaggerated and the e are probabilities of smooth settlement At all events, the mark received a shock and the effects of same are y visible. The gold market rules dull and thos who wish to acure specie have to pay one o two cents above par; on the other hand, thos who wish to sell gold find it difficult to ge any premium at all.

Very little business was done in Cedulas but Series E appears to have touched bottom and prices are rising steadily again. Th market opened hard at 83½ and rates advan e gradually to 85½ for the end of the month Nearly all the brokers are now seen with roll of Cedulas under both arms at the liquidator' parlor and at the tables; the speculation ha led to increased business, but operations are on a very small scale, although any heavy cas bull might enter the hall and sweep the Series off the market. There is more talk every day about the new branches of the Bank, but as is the case in all these Government matt r they will take some time before they are fin ally established It is rumoured that diffi ulties have arisen as to the Tucuman sugarse scheme, whilst on the other hand Entre Rio will soon boast of several branches. We fo our part think that the Province of Buenos Air s is more in need of branches of the Mort gage Bank than the Interior and litoral Provinces.

National Bank Shares of late have gradually lost the firm aspect th t characterised the stock at the end of last month; the shares have become very susceptible, and any bearish rumo affects the prices The operations this morning were larger than usual, but the black boar is not a true interpreter of the sales on the Bolsa, as many purchases were effected to-day outside the ring. Prices are firmer than last night, and people have recovered from th panic. The e was a rumor current that th money lent on the shares had to be called in immediately, but we hear on good authority that there is nothing in the rumor. The bullview of the situation calmly and abide the end of the month. Up to the present no speculation has sprung up for the end of next month, but we may expect some next week.

Some National Bonds were sold to-day at 88 o/o, which shews an improvement on last quotations; the sale was a very small one.

Brokers report paper money tightening in the market again, and discounts slightly more difficult. The Provincial Bank, nevertheless continues to be pretty liberal in its paper discounts

In spite of the continued bad advices from Europe of a commercial, financial, and industrial nature, our wool markets do not seem in the least affected and the prices paid are both high and firm in the South and North Plazas. All the French buyers have abandoned the market, as they find it utterly impossible to compete with the Germans, who are now the principal operators in the market. A well known German barraquero of the South Plaza paid this morning $104 m/c per arroba for good wools. Nevertheless, there is a difference of at least $5 m/c per ar. in the prices paid in South and those in the North. Good wools have always been and continue to be in constant demand, in spite of all that has been said, and in the South, we hear that several deposits have been emptied. In the Plaza Once the principal consignatories of good wools for the moment are Messrs Unzue, Duggan and Casey; a leading exporter bought yesterday several lots from the Once deposits at firm prices. The market is firm and there are few probabilities of wool falling, and in the opinion of many we may expect the close of the clip within two months.

Several well known fashionable artistas prepare to leave for Europe by the French packet of the 8th of next month; their departure is earlier than usual, but as they cannot operate on the limits given there they go home.

Several parties have entered the grain market, offering contracts for the new maize crop at $49 m/c per fanega, put on board; naturally for export the 'chacareros' won't accept the contracts under 52 m/c.

The Hamburg left yesterday for Europe; Mr O Lillers and wife left in her for Germany.

The idea of a "punkah" on the Bolsa finds general acceptance, and both merchants and brokers hope that the enterprising members of the Camara Syndical will carry out the idea.

The Custom House has collected up to the present 740,000 pats, which means an average return of 60,000 pats per diem.

Mr H Aitgelt, in his important wheat circular, states that the millers of this city have held a meeting in order to adopt measures to protect their interests from the attacks of their colleagues up the rivers; up to the present the Committee named by the millers have not arrived at any satisfactory arrangement in the matter.

Wheat in the market continues weak, owing to the very heavy arrivals; in fact there are no deposits for all the grain that is arriving. We are sorry Mr Altgelt has no figures of the arrivals of the week, as they are reported unusally large.

After hours the prevailing feature of the Bolsa was dulness. Shares closed at 123 and Cedulas at 85. The rain prevented many merchants from attending, and no business whatever was transacted. The hall in fact looked like an aesthetical club, smoking in the ascendant.

At the meeting of the Italian Bank board yesterday Mr. Antonio Davotto was named President of the Bank and Mr D Parodi Vice President: both good men, with the highest reputation in the market.

Mr Florencio Madero leaves Messrs Baltar and Quesada on the 15th inst, owing to impaired health: Mr Madero always lent a magical twist to the auctioneer's hammer, and his genial countenance put on 25 o/o to the bidding.

The Tuniers left to-day with a full cargo of hides and salted hides. The Dom Pedro left also.

Robberies are on the increase on the Flores Road, and Mr Victorica, the popular Juez of the village of the plain, should put a stop to these night attacks. At Ledesma's quinta robbers tried to break into the house several times during last month: they visited the quinta of Lambare the night before last and passed on to Dr Dal Campo's pretty Tusculum. Watches are now posted in the top room and on the azotea, rifle in hand, to meet any emergency.

Some 4,000 arrobes of wool arrived this morning in the Once. The market is nearly paralyzed; little doing.

Exchange rules as usual, little doing.

The rate of discount are the same, but the market looks a little tighter.

1,000 head of pasto fuerte cattle have been sold in Junin at the rate of $260 m/c. This is a good price.

We call the attention of those of our readers, who wish to secure fine, solid English furniture, to the auction in another column a 618 Calle Cuyo. The auction takes place on Tuesday the 14th inst., and it is worth while attending the auction.

600 head of cattle 'al corte' have been sold in Bahia Blanca at the rate of $230 m/c per animal.

The following sales of real estate were registered yesterday in the National escribania:
Calle Balcarce No. 52 corner Calle Moreno No 30, 38:10x16:32 m.s. for 19,000 pats.
Calle Nueva Paraguay between Calle Centro America and Bermejo, 17:32x34:34 mts., for 4,320 pats.
Calle Peru between Calle San Juan and Jochabamba, 7:58x30:52 mts, for 1,000 pats.
Seccion 12a de las tierras cedidas a la Nacion por la Provincia de Buenos Aires, 4 leguas cuadradas en 1,400 pats.

The loss of the small steamer Felix Amistad is estimated at 20,000 pats.; neither steamer nor cargo was insured.

The Savoie has arrived in port with 450 emigrants from the South of Europe. The current of emigration to the R. Plata for the moment is not large. The fact may arise from the circumstance that the wheat harvesting is over. At this period of the year very many Italians leave the country homeward bound, to come back next season.

Packet privileges have been granted to the Werder, Petropolis, and Hannover

Entre Rios, it is rumoured, is in the market for a fresh loan of £100,000 sterling. As the credit of that Province is very flourishing, the launching of same will not be difficult; but we think it would be easier to get the money in London than on the B. Aires Bolsa.

Advices report camps in Arrecifes in good condition and animals as fat as possible; pastures splendid. The rails of the Western Railway are already in Urquiza estancia, but the extension does not advance very quickly; people in Arrecifes are anxious to have the railway as soon as possible. A fine station is to be erected on Mr Duggan's estancia and to be called the Estacion Duggan.

The Custom House authorities have posted up a notice, advising people that goods taken out of deposit without being thoroughly dispatched will be confiscated, or the party must pay a fine equivalent to the value of same.

Active arrangements are being made between the Mortgage Bank and the Entre Rano Government for the definite establishment of branches of the Bank in that Province. The Bank at present awaits the proposals of the Entre Rano Government, and it is more than probable that they will be most favorable and accepted.

A native colleague states that the Santa Fe Government is negotiating with the Provincial Government of B. Aires in order to convert the present Sta. Fe Provincial Bank into a branch establishment of both the Mortgage and Provincial Banks of B. Aires. Should the measure be carried out, it would be most beneficial to the Santa Fe ians. The paper of the Provincial Bank of B. Aires is as current as gold in that Province.

There are many ugly rumors in the market that tend to affect business, stocks, and everything in fact, touching commercial interests. It is stated amongst many other items of a more definite character that we may look forward to a squeeze in the export business, and a general tumble in stocks on the Bolsa. These are after all mere anticipations, caused by suspicions arising from the failure of the Antwerp firm and its wide connections in this market.

Messrs Bunge & Co., in their important produce circular, under date Antwerp, Feb. 9th, 1882, give the following:—

Wool—

The result of our public sales which closed to-day has been altogether unsatisfactory to the holding interest. Occurrents especulating the opening already pointed toward lower prices, and this probability has been more true to a larger extent even than was expected. Failures in Verviers and the general uneasiness prevailing in France on account of the recent financial disturbances, made buyers from those quarters extremely prudent, and the raising of the rate of discount in nearly all countries, our rate touched for a while the unprecedentedly high figure of 9 o/o, further tended to make business unprofitable and difficult. Notwithstanding all this the number of buyers present at the opening was unusually large. During the first sitting exclusively devoted to the sale of Australian wools, tolerable animation prevailed, Germany where trade appears to work well, being the principal buyer, but already at the ensuing sitting in which the sale of River Plate wools commenced, a marked reaction for the worse could be observed. Bids were made in a sluggish manner and prices as compared with those previously paid by private contract, show a decline of 10 to 5 per cents and occasionally even more. As the sales progressed it appeared during one or two days, as if a certain revival was about setting in, but this soon passed away, and we close our auctions in a dull and depressed tone, prices being fully as low as they were at the opening.

Hides—
There has been a regular enquiry during the past fortnight, and the business reported show some increase. The tone of the market is steady, and since our stock is very moderate holders are enabled to fully maintain their prices.

We know of no sales to arrive neither her nor in England.

Killings in South America on 1st inst amounted to 340,000 head against 548,000 same time last year. It is, however, to be presumed according to late news received by cable that the total slaughterings will not be as large as was originally anticipated.

Tallow—
We have no change to report as regards this article prices of which continue perfectly nominal. The first cargo of the Liebig factory is offered at the rarity of about fr. 106, but no bids have been made.

The National Committee of the Exhibition has handed to the Club Industrial the balance necessary to pay off the pending debts of the Exhibition. This looks like business, and many disagreements might have been spared from the beginning if the Committee in question had always acted in the same liberal manner.

PERSECUTION OF THE JEWS IN EUROPE.

(From our London Correspondent)

A large and successful meeting, in which were represented, either in person or by letter, the opinions of such men as the Archbishop of Canterbury, the Earl of Shaftesbury, Cardinal Manning, Karl Blind, Professor Darwin and Mr. Spurgeon, besides a crowd of other notabilities of all ranks and creeds, must be allowed to illustrate the united culture and intellect of England as morally up in arms against the scandalous persecution of the Jews in Eastern Europe. Such a meeting has just taken place in the Mansion House, under the presidency of the Lord Mayor. The Earl of Shaftesbury, in passing the first resolution, 'that the persecution and outrages which the Jews in many parts of the Russian dominions have for several months passed suffered, are an offence to civilisation,' took care to observe that a memorial presented by the meeting might be thrown into the waste-paper basket by the Russian Government; still his lordship observed that such a memorial, and any resolutions passed at the meeting would at least be a manifestation of public opinion, and that neither the Sultan of Turkey or the Shah of Persia in our times, nor Napoleon I. in times gone by, could afford to set at defiance the public opinion of Europe or of any great European State. Lord Shaftesbury, who was not afraid to repeat what he had said during the agitation in regard to the Bulgarian atrocities that 'he almost wished to see the Russians on the shores of the Bosphorus,' was of all men entitled to disown with contempt the vulgar accusation that the meeting at the Mansion House was prompted less by sympathy for the persecuted Jews than by a hatred of Russia. The resolution proposed by Lord Shaftesbury was seconded by the Bishop of London. The next resolution—'that this meeting, while disclaiming any right or desire to interfere in the internal affairs of another country, feels it a duty to express its opinion that the laws of Russia relating to Jews, tend to degrade them in the eyes of the Christian population and to expose Russian Jewish subjects to the outbreaks of fanatical ignorance,' was proposed in a long and eloquent speech by Cardinal Manning, who, of course, took the earliest opportunity of stating that he should not have been present had there been the faintest suspicion of party politics in the intentions of the meeting. The English Cardinal did not fail to touch upon the kindred question of the anti-semitic movement in Germany. He dreaded it, lest it might raise the animosities which have taken flame in Russia; and His Eminence remarked that in reading an elaborate article written in Prussia and published in the Nineteenth Century he regretted that in that cultured energetic and rationalistic country the power of the Old Testament should be so much greater than the New. He said he had read with pain accounts of the condition of Russian Jews, bringing accusations against them so immoral and infamous, he must ask his Jewish friends near him to believe that he rejected such accusations with incredulity and horror. And even if the accusations were true, would it not be because the laws and disabilities in their regard tended to irritate and debase? "They bring these accusations against the Russian Jews; why, said the Cardinal, do they not bring them against the Jews of Germany? By the acknowledgment of the anti semitic movement, the Jews in Germany rise head and shoulders above their fellows. Why do not they bring those accusations against the Jews of France? Is there any career of public utility, any path of honour, civil or military, in which the Jews have not stood side by side with their countrymen? If the charge is brought against the Jews of Russia, who will bring it against the Jews of England? For uprightness, for refinement, for generosity, for charity, for all the graces and virtues that adorn humanity, where will be found examples brighter or more true of human excellence than in this Hebrew race?" The Cardinal then went on to blame the spirit of the Russian rescript or 'ukase' issued by reason of the atrocities committed last summer. The illiberal tendency and inquisitorial nature of that decree in respect to the habits, trades and possessions of the Jews were, he said, a direct incentive to further persecution. The resolution was seconded by Canon Farrar, who represented the Archbishop of Canterbury, whose medical advisers would not permit him to attend the meeting. Mr. Farrar was bleakly philo-Russian, and reminded the meeting, that an early Russian Prince had married a daughter of the last Anglo-Saxon king; and from that time to the marriage of the late Emperor's daughter with the Duke of Edinburgh the two nations had at all times been friendly with the exception of the period of the Crimean war, now forgotten. The Canon said, "he did not dream of charging the Russian Church, or the Russian Government or the Emperor with any complicity in, or condonation of these abominable actions." Canon Farrar evidently overlooked what Cardinal Manning had observed in regard to the 'ukase.' Two or three other resolutions were passed, but the most important was the fourth, proposed by Mr Hubbard M.P., namely:—"that a fund be raised at the Mansionhouse for the purpose of contributing to relieve the distress among the Jewish population of Russia and among the refugees therefrom, which distress has been caused by the recent outrages of which they have been the victims, and also for the purpose of affecting some permanent amelioration in their condition in such manner as the committee may deem expedient, whether by emigration or otherwise."

After the meeting donations to the amount of over £15,000 were handed in. Messrs. N M Rothschild and Sons (London) subscribed £5,000, Messrs. de Rothschild Brothers (Paris) subscribed £5,000, Mr Samuel Montagu £,1000, Messrs. Louis Cohen and Sons £1,000, Messrs. Beddington £1,000 Messrs. Seligman Brothers £1,000, Baron de Worms £300, Baron George de Worms £100, Baron Henry de Worms, M.P., £100, the Lord Mayor £52 10s., Mr Louis Goldberg £210, Mr David Goldberg £100, Mr George Burns £50, Mr John Burns £50, Mr Arthur Cohen, Q.C., M.P., £50, Mr U S Joseph £100, Messrs. S Hyamson and Co £25, and Mr Israel Hart £20. A collection at St. Jude's Southsea, brought in £34 10s. 9d.

PARIS LETTER.

(From our own Correspondent)

February 7th.

Cincinnatus has returned to his plough; as after his dictatorship in 1871, Gambetta resumed the editorship of his journal the *Republique Francaise*, so he adopts the same line of conduct now, after ceasing to be prime minister, by the united vote of hostile monarchists and unsteady republicans. Gambetta is enjoying a few weeks holidays, the first he has really had since five years, and to secure which, as he good humoredly observes, it was necessary to form a cabinet and to be defeated. It best men be moulded out of faults, Gambetta will be a wiser and better man when next he takes office. The Intransigeants, in order to keep him out in the cold, have become opportunists. Pericles, however, is certain to triumph over Cleon.

The new Cabinet of all the talents does not set the Seine on fire. It is known rather as the Leon Say than the de Freycinet Ministry, because the latter has abandoned all his views in order to accept the conditions of M. Say—the head and back-bone of the government. Gambetta was censured for aiming to be something between leader and master of the Chamber: de Freycinet professes to be leader, in the sense of following the deputies; and master by promising to do nothing but what will please them. He is dubbed the sugar-stick premier, but will not live a whit longer for all the honeyed assurances he may give. A Methuselah Ministry is impossible so long as deputies view as their first duty to the state, the securing of their seats. The Chamber will then continue its squirrel rounds, devouring cabinets as Saturn did his offspring.

The new Cainet being composed, its Chief included, of more or less used-up politicians, may hold on a few months, following the adage that 'cracked vessels last longest.' It lives at Gambetta's mercy. But he will do nothing until all the talents bring forward their budget of reforms. His ex-colleagues have deposited on the table of the House their projected plans of reform—so many Parthian arrows.

The financial crisis has passed through its high fever stage, but some time must elapse ere the monetary world regains confidence and calm. Wrecks are strewn about right and left, families in wealth a week ago are now steeped deep in poverty, having but the consolation that they owed millions which they were unable to pay. The air will be purer when the dead shall have buried their dead, and the lesson will not be lost, that there is no royal road to wealth, and that high interest is but another name for bad security. The 'Union Générale' financial society has cut up very badly. Its president and director have been arrested; the latter walked to prison arm in arm with the inspector of detectives, smoking cigars en route and discussing political and financial breakdowns. The bank has been declared bankrupt, and the criminal proceedings are based not only on a false statement as to millions of profits, but of the directors forming themselves into two camps, one to sell the shares, the other to buy them. When the dupes purchased, the trick was done. This sent the shares up some 400 per cent; like the rocket, they came down as the stick.

Fortunately the directors are rich and belong to the aristocratic world, so that their private fortunes, if available, will be a source of greater gratification to the sufferers than their imprisonment. The Comte d'Harcourt, ex-private secretary and relative of Marshal Mac Mahon, is one of the directors, also the Duc de Broglie's son, married to the rich niece of M Say, Minister of Finance. In fact the 'fine fleur of the enemies of the Republic are in a corner, and the republicans already demand that examples be made, The *Triboulet*, a satirical organ of the Legitimists, and owned by the defaulting bank, was the first to give up the ghost. A journal observes, 'suicides and decampings are postponed till after the 5th—settling day'.

Next to heaven, the most marriages are said to be made in Nice, hence why the subjects for all international books of beauties there congregate. Besides, Nice is the natural home for orange blossoms as well as for Belgravian mothers and bachelors on the look out. It is specially attractive this season; it is exempt from political cyclones, financial 'kracks' and frosty fogs: as if dancing was insufficient at 'Soirees' it is also patronised at 'Matinees'. Paris, in point of amusement is sulky; ladies patronize black colors, perhaps, out of regret for expiring fast life. In fact ladies here seem to prefer a life of comfort and quiet, composed of vanity and inertness; instead of being a fairy, judging from home-life, a lady aspires to be a sultana: her boudoir is a collection of costly knick-knacks, conducive to luxurious indolence; the 'five o'clock tea' follows the two hours traditionally devoted to visiting, and the latter is but home indolence in motion.

Public places of amusement reflect this increasing state of things; but if the fair sex follow the 'nil admirari' doctrine, it is partly due to there being nothing to admire at entertainments.

THOROUGHBRED HORSES

The following letter to one of our foremost estancieros, from Mr Blenkiron, the world-renowned Middle Park breeder, will be read with great pleasure by those interested in the River Plate Turf and the improvement of our breed of horses:—

Middle Park, Eltham, Kent
Dec. 16th, 1881

Dear Sir

Since I had the pleasure of seeing you here, when I got the information as to the time of year from which your thoroughbreds take their age, I thought it worth the speculation having a few mares covered to foal this year (1882 in or about the month of September.

On the other side you will find a list giving dates of last service also pedigree and performances of 'Coltness' by whom they have been covered. If not disposed of privately they will be offered for sale by auction here on May 27th the Saturday of the Derby Week. If you think it advisable, in the event of your not being a purchaser of the mares, that they should be advertised in your sporting paper, would it be taking too great a liberty asking you to have the enclosed inserted occasionally. I am very much obliged for the information which your letter contains, and trust the stake which you have founded may prove a success. With apologies for making a suggestion which may trouble you.

I remain
Yours very truly
Wm. Bleakiron

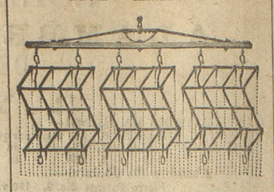
HOWARD'S GELEBRATED HARROWS

Howard's Iron Harrows.

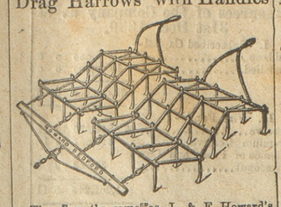


These Harrows have stood the test of many years experience and still remain unrivalled, the demand being greater than ever. Hundreds of thousands are in use. They are strong, durable, and thoroughly adapted for all kinds of work. The tines—which are all steeled—are so fastened that they cannot get loose, and unlike Colonial-made imitations they can be readily taken out for repair.

The following are some of the most useful sizes:—

No. 11, for two or three animals, 10 feet wide, weight 9½ cwt.....
No. 12, for two animals, 9½ feet wide, weight 1¼ cwt.....
No. 14, for one or two animals, 8¼ feet wide, weight 1¼ cwt....
No. 20, for one animal, 7½ feet wide weight 1 cwt.....

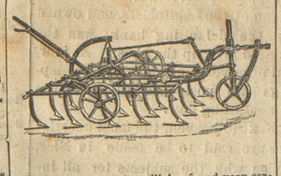
Howard's Drag Harrows with Handles



These are the same as J. & F. Howard's ordinary Drag Harrows, but furnished with handles, by which convenient arrangement the tines can be pressed into the ground, or lifted out to clear them, as occasion may require.

H 16, a pair of 4-beam Harrows, with whippletree, 9½ feet wide 3½ cwt.....
H 16, a pair of 3-beam Harrows, with whippletree, 7½ ft. wide, 3 cwt.....
H 17, a pair of 4-beam Harrows, with whippletree, 6½ feet wide weight 3 cwt.....
H 17, a pair of 3-beam Harrows, with whippletree, 7 feet wide weight 2½ cwt.....
H 18, a pair of 4-beam Harrows, with whippletree, 8 feet wide, weight 3½ cwt.....

Howard's Self-Lifting Wheel Harrows



These Implements will be found very serviceable both as Drag Harrows and as light Scarifiers. They possess an advantage over the ordinary Drag Harrows, in being mounted upon wheels, which whilst diminishing the draught, allows of ready adjustment for harrowing the land deeper or shallower as may be required.

L 1, for two light animals, with 12 tines, 4 ft. wide, weight 3 cwt
L 2, for two or three animals, with 17 tines, 4½ feet wide, weight 3½ cwt.....
L 3, for three or four animals, with 23 tines, 5½ feet wide, weight 4½ cwt.....
L 4, for four animals, with 26 tines 7½ ft. wide, weight 5½ cwt..

The above Machines kept in Stock by the Principal Hardware Merchants.

Dysentery, Cholera, Fever, Ague, Coughs, Colds, &c.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, DR. COLLIS BROWNE'S CHLORODYNE, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

AS SURE AS EGGS ARE EGGS.—An American Editor declares that 'out West' eggs are fetching two-pence each, and that the hens do not care about business even at this price. We fancy this must be very far 'West,' or surely our American cousins would ere this have resorted to the use of 'Borwick's Gold Medal Custard Powder,' which renders the housewife perfectly independent of the domestic fowl, since it produces the most delicious custards, blanc-manges, &c, at half the usual cost, and in much less time. The hens had better be 'cautious about 'striking,' or some enterprising storekeeper will introduce this household boon, and ruin their trade for ever. There is no special 'laying season' for 'Borwick's Custard Powder,'—one can keep it always on hand in the neat little packets and tins in which it is sold. Can be had of all Storekeepers in the Colonies.—*Civilian.*
